PROFILE

Recent Computer Science graduate from COMSATS University Islamabad, Abbottabad Campus. Passionate about learning and building technology solutions through academic projects. Familiar with software development concepts, object-oriented programming, machine learning fundamentals, C# development, and web-based applications. Seeking an internship or entry-level opportunity to gain practical industry experience, contribute to real-world projects, and continue developing technical and professional skills.

TECHNICAL SKILLS

Programming & Development

- C#
- Object-Oriented Programming (OOP)
- Basic ASP.NET Concepts
- Windows Forms

AI & Data

- Machine Learning Fundamentals
- AI Project Development Concepts

Tools & Technologies

- Unity Game Engine
- JSON Handling
- File Handling
- Visual Studio

Professional Skills

- Problem Solving
 - Team Collaboration
 - Documentation
 - Communication
 - Quick Learning
 - Time Management
-

EDUCATION

Bachelors In CS

Bachelor of Science in Computer Science (BSCS)

COMSATS University Islamabad, Abbottabad Campus

Academic PROJECTS

AI Career Coach Project – “Job Sensei”

Technologies & Concepts: AI Integration, Career Guidance System, Web-Based Platform

- Developed an AI-powered career coaching platform for students and job seekers.
- Designed features including resume generation, cover letter assistance, interview preparation, and career planning support.
- Focused on improving accessibility of career guidance through AI-driven recommendations.
- Participated in project planning, documentation, testing, and feature design

Airport Management System

Technology: C#

- Developed an academic desktop application for managing airport-related operations.
- Implemented core functionalities for handling records and system workflows.
- Applied object-oriented programming concepts and software development principles.
- Performed testing and debugging to improve system functionality.

Unity Game Development Projects

- Created multiple academic game development projects using Unity.
- Worked on gameplay mechanics, level design, user interaction, and game logic.
- Developed obstacle-based and collection-based game scenarios as part of coursework.

CAREER OBJECTIVE

Looking for internship and entry-level opportunities in Software Development, QA Testing, Technical Support, Project Coordination, and other technology-related roles where I can learn from experienced professionals and contribute to organizational growth.
